

News Broadcast Experience

Client review report with live product screen captures.

READY TO DEMONSTRATE

All screens ready to demonstrate

The following pages show the actual project screens as captured from the current local experience. Each screen is ready to walk through with the client.

1 connected journey			Capture to final preview
12			
screens captured	from recording to audience format		for client demonstration

How to use this report

Move through the pages in order: establish the three camera views, show how spoken content becomes accessible and multilingual, then demonstrate the presentation, sponsor layouts, and final viewing formats.

Camera 01 - Primary View

READY TO DEMONSTRATE

A full-screen view of the main camera angle, presented as a continuous feed.

Client value: Gives viewers a dependable primary perspective on the presenter and story.

Camera 02 - Alternate View

READY TO DEMONSTRATE

A second camera angle available as its own focused display.

Client value: Adds visual variety and gives the team another strong editorial choice.

Camera 03 - Supporting View

READY TO DEMONSTRATE

A third viewpoint that completes the multi-angle capture experience.

Client value: Helps create richer coverage and supports a more polished final story.

Audio to Text

READY TO DEMONSTRATE

Spoken content is presented as large, easy-to-follow on-screen text alongside audio.

Client value: Makes the story easier to follow and supports accessibility.

Multi-Language Experience

READY TO DEMONSTRATE

The presenter story can be experienced in several language choices, with the active language clearly shown.

Client value: Extends the broadcast to broader audiences while keeping one consistent message.

Edited Video - Highlight Reel

READY TO DEMONSTRATE

A concise replay brings together the strongest moments from the recorded session.

Client value: Allows a longer recording to be shared as an engaging, audience-ready recap.

Background Change Video

READY TO DEMONSTRATE

A visual selection screen places the presenter in a suitable studio-style setting.

Client value: Makes each story feel appropriate to the topic, campaign, or editorial environment.

Subtitle Language Change

READY TO DEMONSTRATE

A focused review view for changing the subtitle language and checking how the message reads.

Client value: Supports clear, locally relevant presentation before content is shown to the audience.

Ads Banner Video - Side Layout

READY TO DEMONSTRATE

A broadcast layout where a brand message sits alongside the video experience.

Client value: Creates space for sponsorship while preserving the clarity of the editorial video.

Ads Banner Video - Lower Layout

READY TO DEMONSTRATE

A second advertising layout using a lower banner treatment under the video.

Client value: Offers a more traditional on-screen promotion option for different campaign needs.

Final Preview - Portrait

READY TO DEMONSTRATE

A phone-first preview of the finished experience in a vertical format.

Client value: Lets stakeholders judge the experience exactly as mobile audiences will see it.

Final Preview - Landscape

READY TO DEMONSTRATE

A widescreen preview of the finished broadcast experience.

Client value: Provides a confident final check for television, web players, displays, and desktop viewing.
